

Opti-DUCT™

Cable Management System

Litech®

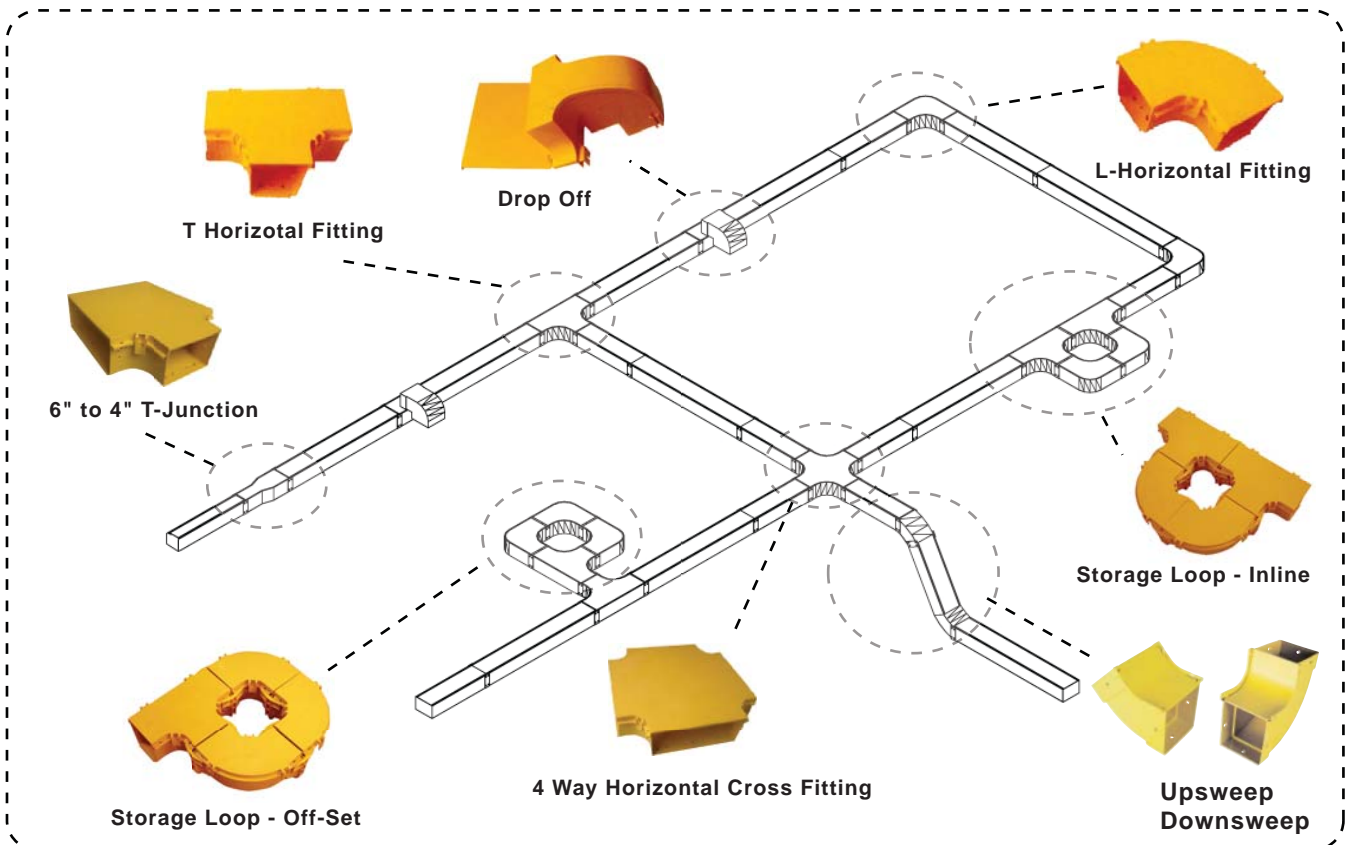

www.litech.cc

Opti-DUCT cable management system features innovative solutions for fiber optic cable and patchcords cabling between optical distribution frames and equipment racks in data centers and equipment rooms. Opti-Duct systems features a snap-fit and modular systems to provide quick installation, easy access, and flexibility for moves, adds, changes of fiber optic cabling.

FEATURES:

- Ease of installation
- All component ensure minimal bending radius of fiber
- Complete range of components available such as tee, elbows, junctions, adapters & etc
- All components are comes with cover for additional cable protection
- Snap-on features provides easy access for future cabling revision
- Complete range of fittings and brackets provide flexible for installation on ladder, equipment rack, walls or ceiling.
- Flame-retardant material (UL94-0)

SYSTEM OVERVIEW:

4" Components

<p>Trumpet Attachment</p> 	<p>Hoop</p> 	<p>Coupler</p> 	<p>Channel & Cover</p>
